How To Draw People (Dover How To Draw)

Synopsis

By joining circles, ovals, rectangles, cylinders, and other common shapes, even the youngest artist can easily create 30 different characters – a fireman, a drummer, a mailman, a cowboy, an astronaut, a roller-skating girl, a boy on a swing, and more. Blank practice pages make it even easier. You can color the pictures when you are done!

I use these kinds of books in the classroom. The children gain great confidence with the success they achieve in their first drawings. Additionally this book adds to my collection of cartoons for quick inspiration. Having a library of organized images to peruse allows for a quick rendering of a rain forest, a family reunion, children interacting with adults, plants and animals, and a myriad of other combinations. Having this as a resource allows me to illustrate my own children's stories and gives me greater confidence for publication. I bought many at one time and was given a four for the price of three discount each time. (I don't know if that is always available.) If you ever believed anyone who said you cannot draw, get this book and prove to yourself that you can.

It's a great book for beginners. It uses simple shapes(circles, squares, rectangles) to produce simple, completed step-by-step drawings. I've drawn some of them myself(60 yrs. old) and I think

younger, artistically inclined children could do them too.

This was a gift for my grandson who is currently drawing everything in sight! purchased the book to encourage him to try new ways of seeing people, and to get him to draw things other than Thomas the Tank engine. It worked

My children, ages 9 and 10 have enjoyed using this book since they received it for Christmas. It's a great early tutorial on drawing.

received the book for a gift and inspected,found several pages in the book were black or half black,as if ran off on a really bad copying machine at the office,otherwise nice book,just cant see some stuff

Fun book on doodling characters. My kids love it and the step by step process makes your doodles look really good. Great book for a kid who wants to say goodbye to stick figures![...]

My 8 yr old loves this book. She loves to draw, and the step-by-step illustrations help her produce top quality drawings. She achieves success w/out any frustration. My 4 yr old has even had fun following along. Great book!

My 6 year old absolutely loves this! Easy to follow examples. I cant even believe how well this has helped her. Her drawings are amazing! Definitely easy enough for a young child (6,7,8ish) to follow.If my review was helpful to you, please choose YES. Thank you!
