Choral Scores

Synopsis

Choral Scores is an anthology of music exemplifying distinctive choral repertoire by the most noteworthy composers throughout the history of Western music. A companion volume to Denis Shrock's *Choral Repertoire* (Oxford 2009), it presents works of salient importance to the development of choral music in Western culture, representing the music of the composers, eras, and movements discussed most prominently in that volume. Including 132 compositions by 124 different composers, each presented unabridged and in full score, and spanning the entirety of Western music history, from the medieval era through the twentieth century, and into the twenty-first, *Choral Scores* is the most thorough, and up-to-date collection of choral music available. Complete with an appendix offering literal translations of texts, as well as composer and genre indices, *Choral Scores* is an essential reference for choral scholars, teachers, and students alike.

Customer Reviews

a necessary volume for any serious choral conductor.

Great compliment to Shrock's comprehensive *Choral Repertoire* book. Definitely worth it for those studying choral literature or just wanting a guide for picking literature for their ensemble.
