Air Brushing 101 (Paint Expert)

Synopsis

Airbrushing 101 presents a series of start-to-finish projects, each painted by a different artist, and each designed to illustrate a different type of airbrushing. Author Doug Mitchel and the artists in the book introduce a wide range of airbrushing categories, including: fire art/illustration, T-shirts, automotive, fingernails, body and face painting, hip hop and model painting. All the start-to-finish photo sequences are designed for first-time airbrush users. In addition to the sequences, Airbrushing 101 illustrates the basic strokes that form the foundation for nearly all airbrush art.Â Doug Mitchel uses interviews to explore the way in which each artist learned his or her skills, what type of paint they prefer, how they adjust their airbrush, and how to avoid the typical beginnerâ€™s mistakes. Airbrushing 101 uses over 400 color photos to document each step in the creation of various types of airbrush art. The photos tell the story, with informative captions and interviews, to draw out the details of each artistâ€™s favorite tools and techniques.

Book Information

Series: Paint Expert

Paperback: 144 pages

Publisher: Wolfgang Publications, Inc. (October 15, 2008)

Customer Reviews

this book for beginners or other airbrushes would be helpful to help for more skills to help them in their airbrushing.

The introductory chapter on basic techniques is in all probability the best I have ever come across.the step by step panels featured through the book give one a very clear impression of what is being achieved by each step. I cannot fault these since as an educator I used similar techniques

to help students learn to cook and present food. My criticism is based on taste I am simply not into screaming skulls, dead fish and psychotic or gruesome characters and so I will probably put those pages through the shredder.

Lots of informative sequential photos to explain step by step procedures.
