Customer Reviews

Overall pretty good kit to break the entry into wide world of calligraphy. The booklet inside was good and you shows you the steps, just feel like it could have been put together a little better/had more content. Overall very satisfied with the purchase and would give 4.75 stars if I could.

I bought this for my 15 year old daughter who loves art. This was one of her favorite Christmas gifts. It includes everything you need and detailed instructions. She spent hours every day over Christmas break learning how to do Calligraphy. I will remember this as birthday gift ideas. I think younger teens and even adults would like this also!

If you take this product as it is, it is a good product. However, if you're wanting to learn calligraphy,

you might as well go all out and get a dip pen. I switched to one after using the pens provided in this book, and I made more progress than ever. The learning curve is steeper than the cartridge pens, but for long term calligraphy skills, you might as well go all out. A nib, pen holder, and ink are relatively cheap as well.

Expensive for 3 inexpensive pens with wide nibs and some ink cartridges. The book is very basic and not very complete. The box it comes in is beautiful.

This kit is so awful. The booklet doesn't really teach you anything and the pens are awful. I tried both fountain pens that it supplied you with and you can't get the ink to flow! And the markers are way too big! Do NOT buy this product!!!!

Just as I figured this would be, a beginner's guide to doing calligraphy. I find the old English text fun to learn as well as chancery cursive. Buy this to get a head start in calligraphy; you'll be glad you did!

I was expecting something much better than what I actually had. 2 nibs do not work and I tried locating an email addy to let the seller know, but I couldn't find one. There is not enough practice paper, the 'text' book is small, there was no info to re-order the ink, and the 2 pens are made of flimsy plastic. I actually found a better calligraphy set for \$9.00 which has 20x more nibs. I ended up calling to see if I can get a replacement nib and settled on a 20% refund because I will be having surgery and I won't be able to return it.

i liked the variety of alphabet styles that were in the book. the marker pens didn't all work very well.
