Customer Reviews

This is volume 13 of the "Swear and Relax" coloring books- this book edition is called "EFF Everything". I will start off by saying that I'm not as huge of a fan of this one, as I was the first volume. It's almost like they were pushing too hard for swear words. There are thirty-five pages to color in this book, but the last few were just like little segments from other coloring books, or so that's how it appeared. There are still some pretty awesome pages in this book but they aren't

necessarily my style. The pages are thick and only printed on one side. most of the wording still appears as an after thought in the images; that's not the case for every page though. I prefer the pages where the wording seems like it's actually considered when the page is designed and not just randomly placed onto the page.

It's a nice calming effect to color, but when it's a horrible day, this one is nice to do! Just think of the horrible things you wish you say to your boss or co-workers! Now you can just color them and feel so much better afterwards. The pages are nice, but if using markers, I'd recommend you put something between the pages. They do bleed a little...not much but a little. I enjoyed this one a lot and it's not too expensive. It's a great choice for anyone really.

Fun! Some of the pages are odd and the art isn't the greatest but other pages are really well done, and very humorous. If you found my review helpful please vote "YES" as this helps me become a better reviewer! I received this product at a significant discount for my honest review and they are my own opinions and of my own accord. I received no monetary gain for this review and I am not required to give a positive review. I do not know the seller or am associated with the seller in any way. When I rate something the number of stars is just my opinion on how I feel about the product. If I give something a 5 star rating that means that I truly love that product and use it often it and I truly am glad I have it. Items I give 4 star ratings are items that do exactly as I would expect, but have not stood out significantly in any way or that have some minor flaw but the product is worth it to overlook the flaw. An item that gets a 3 star rating from me is one that I feel neutral regarding the product. Rarely will I give a 1 or 2 star rating unless the item is completely worthless and not worth the money. If I have received the item at a discount, then I go through the same exact reviewing process as if I paid full price for the product.

At first I thought the words would be starred as the title was starred, but the words are the real deal. I bought the book for my stressed out wife and she loves it. Says it helps cope. Haha. All in all. Genius book!

Yes I am immature and I love this coloring book. I like how there is so much to color on one page. It is very calming and funny with the swear word added to it.

Bought this for my mother in law for Mother's Day. She loved it and couldn't stop laughing and

showing it off. Very funny!

It was the perfect stress reliever for my co-workers!

great book for a great price. The back few pages seems to be advertising for other books but you can still color them they are just small and hey for \$3 what do you expect and its worth it!
