Customer Reviews

I love coloring, sometimes I color to de-stress and sometimes as something to do with the kids. I love this coloring book full of Mandalas to color. This coloring book is really nice. The book has a nice design on the cover. This coloring book has over 45 different Mandala designs for you to color. All the designs are fairly simple, they have good detail but it doesn't overload you with detail. The artist obviously took the time drawing each design. I like detailed books as well but I feel relaxes while coloring in this book. I take time for worship while coloring and praying and spending time with the Lord. It is great to use as a Devotional. The paper is thin/medium weight and the pictures are all printed on 1 side of the paper, these are beautiful and they would be easy to from after coloring them to either keep or give as gifts. I am really pleased with this coloring book and would recommend it. I find it very relaxing to color in. They even include a page in the book on how to follow them on social media and their website. I am enjoying coloring in it. I received this product for free or at a discount for testing in return for my honest and unbiased review. This does not affect my review. This book meets above my expectations. These mandalas are creatively and beautifully crafted for an adult who easily gets stressed out and needs a few mins to sit and breathe. This book is my go to stress reliever.

Out of all of the Mandala coloring books that this company has, I believe this one gets the top vote from me for beautiful patterns. This coloring book comes with 40 designs on single pages, each design different and beautiful. You can easily get lost in the beauty of these designs and loose track of time!! If you are looking for an adult coloring book, and even if mandalas aren't your style, check out everything that this company offers because I can promise, you won't be disappointed!! I am happy with this product and would recommend and have already. **I received this book as part of a preferred reviewer program for testing in exchange, if I so desire, for an unbiased, honest review.

Whenever I feel very bored in our house, I just get this and do some coloring with it. It gives life to a dull day. I'm satisfied when I finished coloring them. These Adult Coloring books are the new hot "in" thing for relieving the stress of a long, hard day. Fairly easy to do ("Stay within the lines, now!" as Mrs. Crabapple used to say), I tried one of these before bed, and it was remarkably relaxing. Mind you, these are NOT kids coloring books- they are significantly more artistic and difficult. However, a bright and talented middle-schooler could certainly do one. This is one of the more nicely laid out and created books I have come across. The cover is not too stiff that you can't bend it to say out of your way. While the edges of the mandalas vary, they are all in a circular format (versus square or freeform.) Most of the designs are intricate while others are fairly open and easy to color. Some of the intricate designs also have small areas to color. I have just discovered • Uni-ball Signo 0.38 gel pens which work fantastic for these small spaces. The pages are not perforated but the artist has left ample room to cut a page out if you choose to do so. The binding is glued rather than sewn so you will have to cut the pages if you want to remove them. The really artistic among us will have a chance to make something truly lovely as a work of art. The rest of us will just have some nice relaxing fun. Can work well as a gift, too. I have another one of these same books and love it. Fun and relaxing. Really enjoying this. Excellent service and as described. I received this product at a discounted rate in exchange for my full, unbiased and honest review. I test every product before reviewing. My experience may not match everyone's but my experiences are what I base my reviews on. If you felt I was helpful, please click yes below. This is an excellent mandalas coloring book if you like mandalas and intricate coloring designs. This one is definitely detailed enough for the die-hard mandalas and adult coloring book fan. But although I can get a bit impatient with overly detailed and tiny patterns, I did not find this book too intricate or the details too tiny for me. The designs are beautiful, and I like that each page has one distinct mandala in the middle. I am not a huge fan of coloring books that have designs all over the page that have no rhyme or reason, and are there just to fill the page. This one is very symmetrical and not bizarre or psychedelic as I feel some of the coloring books can be. These are just pretty patterns that remind me of doilies or kaleidoscope patterns. The pages are high quality, and I have used both gel pens and colored pencils with little to no bleed-through or warping. I highly

recommend this mandalas coloring book. It is one of my favorites that I have come across due to the symmetry and clear, distinct shapes and patterns. I received this item for evaluation and review.
