I ordered this thinking it would be more splash pages and covers like the Wonder Woman one, and there are those but there is also whole sequences pulled from stories as well. This is really my only complaint...As far as the other reviewer staying about sexually explicit material...two girls kissing is not EXPLICIT and there is absolutely no nudity or intercourse so I'm not sure what book you got but it must not be the same one I did!

I am a huge fan of Harley Quinn and coloring books, it would be nice to see some images from inside though. I will be purchasing anyway but give future buyers a peek, get more sales and avoid unpleasant surprises, in the case of a previous reviewer. Anyone bought this and want to post pictures?

I love my Harley Quinn coloring book! It has lots of pictures directly from the Harley Quinn comic books and lots of different versions of her. It has roller derby, different outfits, bombshell, suicide squad outfit. The only problem I had was on the back somehow it got ripped through the last twenty some pages. So thats frustrating but it's a small rip.

This isn't a true adult coloring book. Instead, it is a series of uncolored pages from graphic novels featuring Harley Quinn. This, to me, makes it even more awesome than a standard coloring book, because it is able to be enjoyed by people who may not want to color, but, instead, just want to enjoy the artwork. I highly recommend this book to anyone who has dreamed of creating their own comic book. One caveat-- if you do want to color, make sure you have very fine-tipped instruments, as some of the gaps between the lines are EXTREMELY small (they are graphic novel pages, after all). I received this book for free through Goodreads Giveaways.
