Level 3B - Lesson Book: Piano Adventures

Synopsis

(Faber Piano Adventures). The 2nd Edition of the Level 3B Lesson Book is a fresh, dynamic update for early-intermediate students. This is the level of contrasts: fast fingerwork contrasted with sonorous tonal colors, and traditional harmonies mingled with contemporary sounds. Compositions from Dvorak, Rebikov, and Liszt are included along with new Faber originals.

I love that each piece allows some focus on a new skill or technique so it's not so overwhelming for the student. At the same time, none of the pieces sound like exercises. They are all lovely compositions (some classical, some new) that my son enjoys playing. It's never a struggle to get him to practice because he likes the music. That's HUGE.

I have a friend whose daughter has used this series of books (Level 1 - 4 so far) in association with her piano lessons. She has made good progress. Sometimes the books are purchased on and sometimes from other sources.

A great series at piano books. My daughter has use this series for several years. I remember using the same books as a child. Books let you progress but not too quickly so that you can get the foundation.

We really like these books, which have been selected by our children's piano teacher. They are playing very well & are thoroughly enjoying it. We like that the songs are truly great works of art, even from early on. We don't have to spend countless hours listening to senseless piano "playing" even for our new learner, as they are playing songs (albeit easy ones) from the start.

This is the best piano lesson series available in my humble opinion. I have been teaching private piano lessons for almost 10 years now and have tried many different series...none compares!

When she switched piano teachers about a year ago, my daughter started using the Piano Adventures books. Since he was still trying to place her, she's gone through 3 of the books already--this one (level 3B) most recently. This is a good companion to the "real" music she's starting to play. The songs appeal to her and challenge her appropriately (though she works through them quickly).

Great practice for my 7 year old! I wish I was learning as much as her. Would recommend to anyone.

I am using the entire series to learn and feel they do an excellent job on their series of books. Would highly recommend this series
