Customer Reviews

I have been an avid reader of Southern Accents for years. I found their book to be well written and filled with the beautiful photography I’ve come to expect from the magazine. Chapters are broken out room-by-room, making it an easy reference guide. The book is one that you’ll not only keep out on the coffee table, but also will refer to often for great decorating ideas.

I found Southern Style a great compedium of how design in the South has evolved. As an editor at a competing magazine, I wish more publications would give us a backward glance at their previously featured work. This book shows not only where southern design has been, but the way past photography and styling techniques have changed. I wish more magazines would publish such a compendium. It would save us all a lot of space with hoarding decorating magazines. Oh admit it,we all do it. Also great text, with deep insight into it’s subject matter.

I eagerly awaited Southern Style's release ll/l only to find that the content was repeated from past issues of Southern Accents. I was looking forward to new pictures/content but found very little that wasn't in old magazines. I think the editors could have at least given us different camera shots of those same rooms. Big disappointment.

The book arrived quickly and was in good shape. I enjoy decorating books and this one had some good ideas. Regardless if a book is written 10-20 years ago there are still some elegant styles they used today. Quality never goes away. I enjoyed the book.

This is a great book for relaxing with and enjoying the art of decorating. Gives ides that can be used in any home. Numerous photos that are well done.

Excellent book!! Received quickly, book exactly as described. Great seller!!

Not great but ok. Some of the pictures were beautiful but some seemed very staged. The dialogue was as interesting as I have come to expect..
