Customer Reviews

honestly, this book is pretty much a waste of money and paper. I honestly bought this book hoping for a bunch of references and the like, but it only contains 26 pages printed front and back. it also doesn't explain how to color them or set them on the face properly except for one example. it's rather useless for anyone who wants a lot of extra guidance, information, and material.

Not a very good how to book. The only way anybody could easily draw the things in this book is if they already have some experience at drawing manga or anything else. Also if you want to draw your own art after reading this then get a different book. Overall mainly just a crude guide on how to draw a specific thing.

Not what I expected though...

My nice was happy because she got this book and now her drawings are going to be better. Thanks

Came on time and is very helpful
