ODY-C Coloring And Activity Book

Synopsis

THE HEAVIEST TRIP IS THE ONE BACK HOME. Lose yourself in an epic twenty-six centuries in the making. Featuring art from the genderbent, science fiction comic ODY-C by MATT FRACTION (CASANOVA, SEX CRIMINALS, SATELLITE SAM) and CHRISTIAN WARD (INFINITE VACATION, OLYMPUS), this interactive activity book takes you on a feverishly eye-popping journey rendered in lavish psychedelic pen-and-ink illustrations â€” all waiting to be brought to life through color. "It's an unlikely mixture of elements, but it hits an inimitable combination of cool and classic that pulls you into the orbit of an intoxicating journey." â€” Paste Magazine "Matt Fraction and Christian Ward's psychedelic, "gender-broke" scifi odyssey has been blowing people away since it debuted late last year, and for good reason. This wild retelling of Homer's Odyssey â€” in which space captain Odyssia and her crew encounter cyclopean space monsters and deadly living narcotic Lotus Eaters â€” is a surreal, massively entertaining epic." â€” io9

I've really enjoyed the influx of adult coloring books that are being made now days. But, it does seem that many either offer overly simple designs or an almost mosaic design that doesn't translate to the source material. Here, I was hoping to find very detailed drawings. Unfortunately the details are a little hit & miss. Unlike some books where the line work is based on a finished image stripped of the colors, this seems to be a combination of the original pencil & ink work - which at first seemed cool to highlight the main importances of each page. The pencil work on some pages is very exact

on others it's a little rough. The ink overlay seems to be there for focus, but instead it appears to be a correction on some of the rougher pencil lines. As cool as the images are & as detailed as they can be on certain pages, the overall effect of the ink / pencil lines overlapping or crossing or even correcting was distracting. I would've preferred a pure ink design, especially for coloring. As for the activities, they are interesting. There is a word find, a fill in blank story like Mad Libs, spot the difference, a maze, etc. Some are actually worth putting in the effort of doing, others are more like sarcastically-toned humor - one of which is expressly pointed out that it can't be done. The overall theme is an adult parody of a kids color & activity book. And when I say adult, I mean adult. This has themes that are definitely not for kids. If you are familiar with the Matt Fraction book ODY-C, then this would all seem quite in place. If you are not, then this may not be for you. As a whole the art is quite elaborate & detailed. I just wished the format of the lines was a little different.
