Customer Reviews

As a Pagan and musician, I love this book! But you certainly don't have to be Pagan to use and enjoy this extensive collection of spiritual songs -- Many faiths are included here. The book is decidedly geared toward honoring the earth, the elements, the Spirit, and the Spirit within, and is essential for anyone following an Earth religion or who wishes to recognize their spiritual connection to both the Earth and Spirit in their worship. If you organize and/or write rituals for your religious group, you should not be without Circle of Song. The book is well organized, includes notations and sheet music for every song, and even suggests dances that can go along with some songs. Whether you honor Yemaya or Yahweh, God or the Goddess, you will be delighted with this valuable collection of songs and chants.

Circle of Song is a wonderful resource for Earth-based ritual and workshops. It features words and music for 300 Pagan, Native American, African, Christian, Jewish, Hindu, and Jewish songs. It

includes instructions for 30 dances which can be used with the songs. There are meditations, background notes, a complete discography and bibliography for sources. No one who uses this kind of material should be without this book

This book provides an excellent resource of movement and song to assist with meditation and reflection. It is firmly based in the Creation spirituality tradition and affirms alternative spiritualities and way of approaching God.

This book provided material for including music in ritual. I've been a ritualist for years, but until recently had not considered music as an option for me. The book provided a wonderful variety of ideas and uses for music.
